

# Who are we?

## Technology at the heart of UBS

Technology sits at the very heart of UBS. As a team of thousands of technologists, we have a critical role to play in building, delivering and maintaining the systems, services and infrastructure that power this organization.

## Technology is people

Technology is a big part of us. It's all about people – each and every person has a crucial role to play on the Technology team.

# Values. Views. Visions.

We'd like to hear **yours**.

# Our Mission

Keeping UBS competitive  
in a **digitized** world.

# ABCDE

Our simple innovation framework.

## A – Artificial Intelligence and Automation

The adoption of automation & Artificial Intelligence tools to drive efficiency into operations and safeguard against risk.

## B – un-Bundling

Deploy our API strategy and new technologies, e.g. block-chain, to focus technology on its core competencies.

## C – Cloud and Connectivity

Use Hybrid cloud and secure connectivity solutions to cost-efficiently run and scale our applications.

## D – Data

Use data management and analytics innovations to create highly competitive offerings and risk control.

## E – Experience

Provide a 24x7, personalized omnichannel experience across devices for both external clients and internal users.

# Women in Technology

## Our Vision

Increase the impact of women in Technology to help keep UBS competitive in a digitized world.

## Our Mission

### How we operate?

Advance the way Technology operates in order to increase diversity

### Internal Identity

Engage, empower and enable women in UBS Technology

### External Community

Inspire the next generation of female technologists
